

SAABIR HUSSEIN

JUNIOR FULL-STACK DEVELOPER

DOB: 21/01/2003 | 07947881924

saabirhus2003@gmail.com

PROFILE SUMMARY

My name is Saabir Hussein and I am a highly motivated junior frontend developer based in London with a passion for crafting user-friendly, visually appealing, and responsive web applications. Proficient in React, JavaScript, TypeScript, HTML, CSS, TailwindCSS, and SQL, I focus on delivering efficient, scalable solutions tailored to user needs.

Currently expanding skills to transition into full-stack development by mastering backend technologies, including server-side programming, database management, and API integration. This journey includes hands-on projects that integrate frontend and backend systems, emphasizing the creation of complete, robust web applications.

As my expertise grows, I am exploring the broader ecosystem of software development, with a long-term interest in transitioning into DevOps. My aim is to bridge the gap between development and operations, contributing to seamless application deployment and maintenance.

SKILLS

HTML	Bootstrap	React.js	Linux
CSS	Javascript	SQL	WordPress
Tailwind	Typescript	Git/Github	C#

FUTURE SKILLS

Node.js	Redux.js	Next.js	Python
---------	----------	---------	--------

WORK EXPERIENCE

Junior Full-Stack Developer November 2023 – Present
Luul Solutions LTD

- Contributed to londonjuniordevelopers.com, enhancing user profiles, introduction videos, and dynamic interfaces using React for a seamless user experience.
- Gained proficiency in Git for version control and Tailwind CSS for building responsive, modern layouts efficiently.
- Improved frontend-backend integration by learning SQL basics to query databases and enhance application functionality.
- Currently training in full stack development, expanding skills with Node.js, backend frameworks, and database management.

Programming Instructor May 2024 – Present
FST Academy

- Teaching game development to kids using Unity and C#, fostering creativity and coding skills.
- Guiding students in developing game mechanics and designing levels, enhancing their technical abilities.
- Lead instructor for kids' web development classes, covering HTML, CSS, Linux, and JavaScript.
- Assisting students in building their web app portfolios by leading hands-on projects, enabling them to apply learned concepts to real-world scenarios.

EDUCATION

Web Development Bootcamp

May 2023 – October 2023

FST Academy

- Certification in HTML, CSS, and JavaScript Collaborated with peers on group projects to enhance teamwork abilities
- Acquired skills in building responsive and interactive web applications

Computer Science

September 2021 – May 2024

Brunel University London

- Studied 2 years + a foundation year before leaving for personal reasons
- Learnt fundamentals to software development and project management.

GCSEs & A-Levels

September 2014 – June 2021

Ark Academy

- GCSEs: Studied in 11 GCSEs, achieving from A* to C.
- A-Levels: Studied Maths, Physics and Economics, achieving a B in Economics
